

# aequationes mathematicae

Vol. 25, 1982

University of Waterloo, Ontario Canada  
Birkhäuser Verlag, Basel · Boston · Stuttgart

## Editorial Office

University of Waterloo, Faculty of Mathematics, Waterloo, Ontario, Canada N2L 3G1.

*aequationes mathematicae* is published by the University of Waterloo and Birkhäuser Verlag.

The journal will publish papers in pure and applied mathematics in general but, in particular, papers on functional equations, combinatorial and numerical analysis. The languages in which papers will generally be accepted are English, French, and German.

Types of manuscripts that will be considered for publication include original research papers, problems and their solutions, expository papers and, as short communications, self-contained abstracts of papers which have been accepted for publication either by this or some other journal with a referee system.

Manuscripts of papers should be submitted to the Editorial Office or to a member of the editorial board. Authors of papers should send the original and two additional copies. Since it is the policy of the journal to publish in advance short communications of all results it accepts for publication, authors should include with the original submissions a self-contained abstract of their paper of length 25–100 lines, which contains a precise statement of the results in the paper. Authors should also include an AMS classification for their paper.

## Subscription rates

The price per volume is sFr. 110.–/US\$66.50; single copy sFr. 40.– 1–2 volumes of 3 numbers each year, published in free sequence. Subscription orders except USA and Canada should be placed with Birkhäuser Verlag, P.O. Box 133, CH-4010 Basel/Switzerland. All orders for USA and Canada should be placed with Birkhäuser Boston, Inc., 380 Green Street, Cambridge, MA 02139/USA.

## Copyright

It is a fundamental condition of publication that submitted manuscripts have not been published, nor will be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature, and translations. Photographic reproduction, microform, or any other reproduction of text, figures or tables from this journal is prohibited without permission obtained from the publisher.

## For users in the USA:

The appearance of the code on the top of the first page of each article in this journal indicates the copyright owner's consent that copies of articles may be made for personal or internal use, or for the personal or internal use of specific clients. However, this consent is given on the condition that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc., 21 Congress St., Salem, Mass. 01970, for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. For copying from back volumes of this journal see Permissions to Photo-Copy: Publisher's Fee List of the CCC.

## For users in the Federal Republic of Germany:

All rights reserved (including those of translation into foreign languages). No part of this journal may be reproduced in any form by photoprint, microfilm, or any other means – nor transmitted or translated into a machine language without the written permission of the publishers. Only single copies of contributions, or parts thereof, may be reproduced for personal use. Copies reproduced and used for other than private purpose in an industrial or commercial undertaking are subject to copyright and, in such cases, a copyright fee must be paid to the VG WORT, Abteilung Wissenschaft, Goethestrasse 49, 8000 München 2, from whom conditions of payment can be obtained on request.

U.S. Postmaster: Send address changes to *aequationes mathematicae*, Birkhäuser Boston Inc., 380 Green Street, Cambridge, MA 02139. Application to mail at second class postage rates is pending at Boston, MA.

## Editors

Professor A. M. Ostrowski  
(Universität Basel)

\*CH-6926 Montagnola,  
Certenago, Switzerland
